A photograph of a field of Nootka lupine (Lupinus nootkatensis) plants. The plants have green, palmately lobed leaves and several upright, elongated flower spikes. Some spikes are in bloom with purple flowers, while others are covered in fuzzy, greyish-brown bracts. The background is a dry, grassy field under a cloudy sky.

A photograph of a midnight sun over a mountain range. The sun is a bright orange-yellow orb on the horizon, partially obscured by thin, horizontal clouds. The sky transitions from a pale blue at the top to a deep orange near the horizon. In the foreground, the dark, silhouetted peaks of mountains are visible. On the right side, a portion of a building with a glass window is visible, showing a reflection of the sun and the sky. The overall scene is serene and captures a unique natural phenomenon.

A wide-angle photograph of a desolate landscape. In the foreground, a dark, winding river flows through a flat, brownish area. The middle ground shows a vast, flat expanse of land, possibly a dry lake bed or a field of sand and gravel. In the background, a large, dark, and rugged mountain range stretches across the horizon under a cloudy sky. The overall scene is one of a remote, natural environment.

A photograph of the Northern Lights (aurora borealis) in a dark night sky. The aurora appears as a vibrant green, ethereal glow that flows from the upper right towards the lower left. The background is a deep, dark blue-black sky filled with numerous small, distant stars. In the lower right foreground, the dark, silhouetted shapes of trees or rocky terrain are visible against the lighter sky. The overall mood is serene and majestic.
