Drangsnes

Grímsey

A wide-angle photograph of a coastal scene. In the foreground, there is a rocky shore covered with dense, dark brown and yellowish seaweed. Pools of water are scattered among the rocks. In the middle ground, the sea is calm with some small rocks visible. In the background, a large, flat-topped island with a green hill and a small red building on top is visible under a cloudy sky.

Three men, Þórður Guðbrandsson, Egill Bjarnason and Grímur Jónsson, were sentenced for witchcraft and burned to death in Kistuvogur in September 1654. This marked the beginning of a period of witch hunting in Iceland where 20 men and one woman were burned for witchcraft.

Norðurfjörður, Reykjaneshyrna

A dramatic landscape photograph of a coastline. The sky is filled with large, dark, textured clouds. A bright light source, likely the sun, is positioned in the upper left, creating a strong lens flare that streaks across the sky and illuminates the water below. The water is dark and calm, reflecting the light from the sky. In the distance, a dark, silhouetted mountain range is visible on the horizon. The foreground shows a dark, rocky shoreline on the right side.

The image shows two Early Marsh Orchids (Dactylorhiza incarnata ssp. ochroleuca) growing in a wet, grassy area. The orchids have long, narrow, green leaves and a tall, slender stem with a dense cluster of small, cream-colored flowers. The surrounding vegetation includes tall, dry grasses and low-lying green plants. A watermark "alpgehnuss.ch" is visible in the upper left quadrant.

Litlibær

Litlibær

Mynd af hringi við Litlibær

Upplýsingar

Litlibær var reistur árið 1895 af tveimur vínaþjófsskyldum, sem bjuggu upphaflega hvor í sínum hluta húsnæðis. Tónið er afmarkað með steinblöðnum garði og mælist um 3 hektarar. Annar frumbyggjarnir var Finnþógi Pétursson ein hinn Guðfinnur Einarsson, og mun fólkið hafa lifað af sjávarnytjum ekki síður en landbætur. Litlibær er aðeins 3,9 x 7,4 m að grunnflati en portbyggt loft er yfir jarðhæð. Tvö útséðhús voru skammt frá íbúðarhúsinu. Alla munu löðlega 20 manns hafa búið í Litlibæ á tímabili. Árið 1917 flutti fjölskylda Guðfinna burt og tók þá Finnþógi við öllu húsinu. Árið 1930 tók Kristján sonur Finnþóga við jörðinni. Þá var steinrúpt bygging reist við norðurhlöð húsnæðis í stað skúra. Árið 1950 var húsið klætt að utan. Kristján bjó í Litlibæ ásamt fjölskyldu til ársins 1969, þá var flutt að Hvítanesi og jörðin fór í eyði. Skammt í suður frá söngaróttum er hringmýndað byggi og er talið mun eldra en aðrar hælðar við Litlibær.

Historical Notes

Litlibær was built in 1895. The hayfield around the house is enclosed by stone wall and has an area of 3 hectares. The residents lived off fishing and farming. The house at Litlibær has an area of only 3.9 x 7.4 metres. There were two kitchen outbuildings near by. As many as 20 people lived in the house at times, and it was occupied until 1969. Just south of the stone wall are the ruins of circular stone-bull shelter, which is considered much older than other stone construction at Litlibær.

Historische Daten

Litlibær (der kleine Hof) wurde 1895 erbaut. Die Hauswiese ist durch eine geschichtete Steinmauer abgegrenzt und misst rund 3 Hektar. Die Bewohner ernährten sich vom Fischfang und der Landwirtschaft. Die Grundfläche des Hauses Litlibær beträgt nicht mehr als 3,9 x 7,4 m. Nahe dabei lagen zwei Küchen (die als Küchen dienten, teilweise wohneten bis zu 20 Personen in Litlibær. Das Anwesen war bis 1969 bewohnt. Knapp südlich der Hauswiesenmauer liegen Grundmauern einer ringförmigen Hütte, dessen Steinstruktur vermutlich älter sind als Litlibær selbst.

Historiske oplysninger

Litlibær blev bygget i 1895. Indmarken blev indhegnet med en stenmur og var tre hektar stor. Man havde sit udkomme af fiskeri og landbrug. Grundfladen er kun 3,9 x 7,4 m. Der lå to køkkener lige langt væk. I en periode skal der have boet ca. 20 mennesker på Litlibær. Gården var i drift til 1969. Ligt syd for indmarkstenen ligger der en ruine af ringformet hytte som man anser for at være betydelig ældre end andre bygningsester på Litlibær.

Un peu d'histoire

La ferme de Litlibær a été construite en 1895. La propriété est entourée par une clôture de pierres et couverte environ 3 hectares. On y vivait de la pêche et d'agriculture. La superficie de la ferme ne faisait que 3,9 m sur 7,4 m. Deux petites serres de cuisine se trouvaient près de là. Il fut un temps où une vingtaine de personnes vivaient à Litlibær. La ferme a été habitée jusqu'en 1969. Au sud de la clôture se trouvent les ruines d'un abri circulaire qui semble bien antérieur aux autres constructions entourant Litlibær.
