Geology: Zeolites (protected place)

A wide-angle landscape photograph showing a calm body of water in the middle ground, which perfectly reflects the sky and the jagged mountain peaks in the background. The foreground is filled with large, dark grey rocks, some of which are covered in bright green moss. The sky is a clear blue with scattered white clouds. The overall scene is peaceful and majestic.

Eskifjörður

A wide-angle landscape photograph of a large, calm lake in Iceland. In the foreground, a grassy hillside with patches of yellow and green vegetation slopes down towards the water. A small dam or breakwater structure extends from the shore into the lake, with a few small buildings or structures nearby. The middle ground shows the expansive blue water of the lake. In the background, a range of rugged, dark mountains stretches across the horizon under a clear blue sky with some light, wispy clouds. The overall scene is peaceful and scenic.
